

RAJIT KUMAR

Digital Marketing Executive • Full-Stack Software Engineer

yrajit256@gmail.com | +91-7505470040 | Kanpur, UP • Open to relocate

PROFILE SUMMARY

Creative, results-oriented Digital Marketing professional and Full-stack Software Engineer with 1.4+ years of industry experience plus independent digital marketing work across social media, content, SEO, paid ads, email and websites. Hands-on with React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, SQL and PHP (Laravel) . Also skilled in UI/UX Design, Graphic Design, Digital Marketing and Professional Video Editing. Proven ability to manage Instagram, Facebook and LinkedIn; plan monthly content calendars; create reels, stories and campaign creatives; run Meta Ads and Google Ads; execute on-page/off-page SEO; manage email campaigns; update websites and landing pages; and report on growth, traffic, leads, CTR, CPC, ROAS and engagement. Strong focus on scalable web applications, RESTful APIs, clean code, performance optimization, user experience, digital campaigns and high-quality visual content — able to manage multiple digital marketing activities independently.

PROFESSIONAL EXPERIENCE

Software Engineer & Digital Marketing

April 2025 – August 2026

Nesting Probe Private Limited

India

- Engineered scalable full-stack web applications using React.js, Next.js, Node.js, Express.js, MongoDB, and MySQL/SQL.
- Optimized backend APIs and database queries, reducing average page load time by 18%.
- Designed and implemented reusable UI components, decreasing frontend development time by 25%.
- Diagnosed and resolved 40+ production issues, significantly improving platform stability and user experience.
- Contributed to Agile sprints, code reviews, testing, and CI/CD deployment processes, improving team efficiency by 20%.
- Managed company pages on Instagram, Facebook and LinkedIn; planned a monthly content calendar and published posts, reels, stories and professional updates; monitored comments, messages and audience interactions.
- Created product-focused captions, creatives, promotional posts and short-form video (Reels / YouTube Shorts) using Canva, Photoshop and Premiere Pro / CapCut.
- Performed keyword research and competitor analysis; optimized website pages, titles, meta descriptions and blogs; supported on-page and off-page SEO to improve organic visibility.
- Supported planning, setup and monitoring of Meta Ads (Facebook & Instagram) and Google Ads — audience targeting, budgets, creatives, and tracking of CTR, CPC, leads, conversions and ROAS.
- Built promotional email campaigns (subject lines, copy and creatives); maintained lists and tracked open rate, CTR and conversions.
- Updated website banners, product information, landing pages and promotional content; coordinated SEO-friendly improvements with development.
- Created and managed the company LinkedIn Business Page; published professional content to increase brand awareness and engagement.
- Conducted market research and competitor tracking; prepared monthly digital reports on social growth, website traffic, paid results and brand visibility using Google Analytics.

PROJECTS

KGP Mall – E-commerce Platform

React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, Tailwind CSS | SEO, Meta Ads, Content, Analytics

- Built a full-featured e-commerce platform with admin dashboard for product, user, order, and sales management.
- Integrated secure authentication, payment processing, order tracking, and analytics. Deployed on production server.
- Wrote SEO-friendly product titles, descriptions and meta tags; created promotional landing pages, banners and campaign creatives.
- Supported paid promotion via Meta Ads and Google Ads; tracked traffic, add-to-cart and conversion metrics from Analytics.

HMS (Hospital Management System)

Full-stack web application | Campaign Management, Content, Website Updates

- Built a full-featured Hospital Management System with admin dashboard for user, chemist, receptionist, pathologist, and campaign management. Deployed on production server.
- Designed and managed digital campaign modules, website content updates, and promotional creatives for health campaigns.

Universal Search Platform

Next.js, Node.js, Express.js, MongoDB, Tailwind CSS, REST APIs | Content, SEO, UX

- Built a powerful search platform with a unified, intelligent interface; implemented advanced search, filters, real-time results and smart recommendations.
- Designed a fast, responsive UI with strong UX; fully deployed with scalable backend integration.
- Optimized landing and result pages for search visibility and created launch content for web.
